

# SE4ALL GLOBAL ENERGY EFFICIENCY FORUM on CITIES

29 – 30 October, 2015 Tokyo, JAPAN

## CLOSING SESSION

# Outcomes of Tokyo Forum 2015

## Session 1 : City-led Policies for Building Energy Efficiency

Large-scale EE improvement can be realized by means of the introduction of high efficiency technologies and their operation.

It is important to establish practical city-led policies and enhance the public-private collaboration, for EE promotion in the building sector.

# Outcomes of Tokyo Forum 2015

## Session 2 : Smarter Urban Transport Infrastructure

Various measures are implemented to develop the smarter and sustainable transport systems.

It is very useful to integrate the various transport systems in consideration of city planning, by enhancement of the public-private collaboration.

# Outcomes of Tokyo Forum 2015

## Session 3 : Optimization of the District Energy System

Creation of new values such as energy supply resilience, DSM and QOL is the key success factor for the district energy system projects.

City-led policies and involvement of citizens are also the key factors. Specially, young people awareness of EE is essential for future.

Information exchange among all the stakeholders on the various aspects of city-projects is very important.

# Outcomes of Tokyo Forum 2015

## Session 4 : Way Forward for the Promotion of Energy Efficiency in the Expanded City Areas

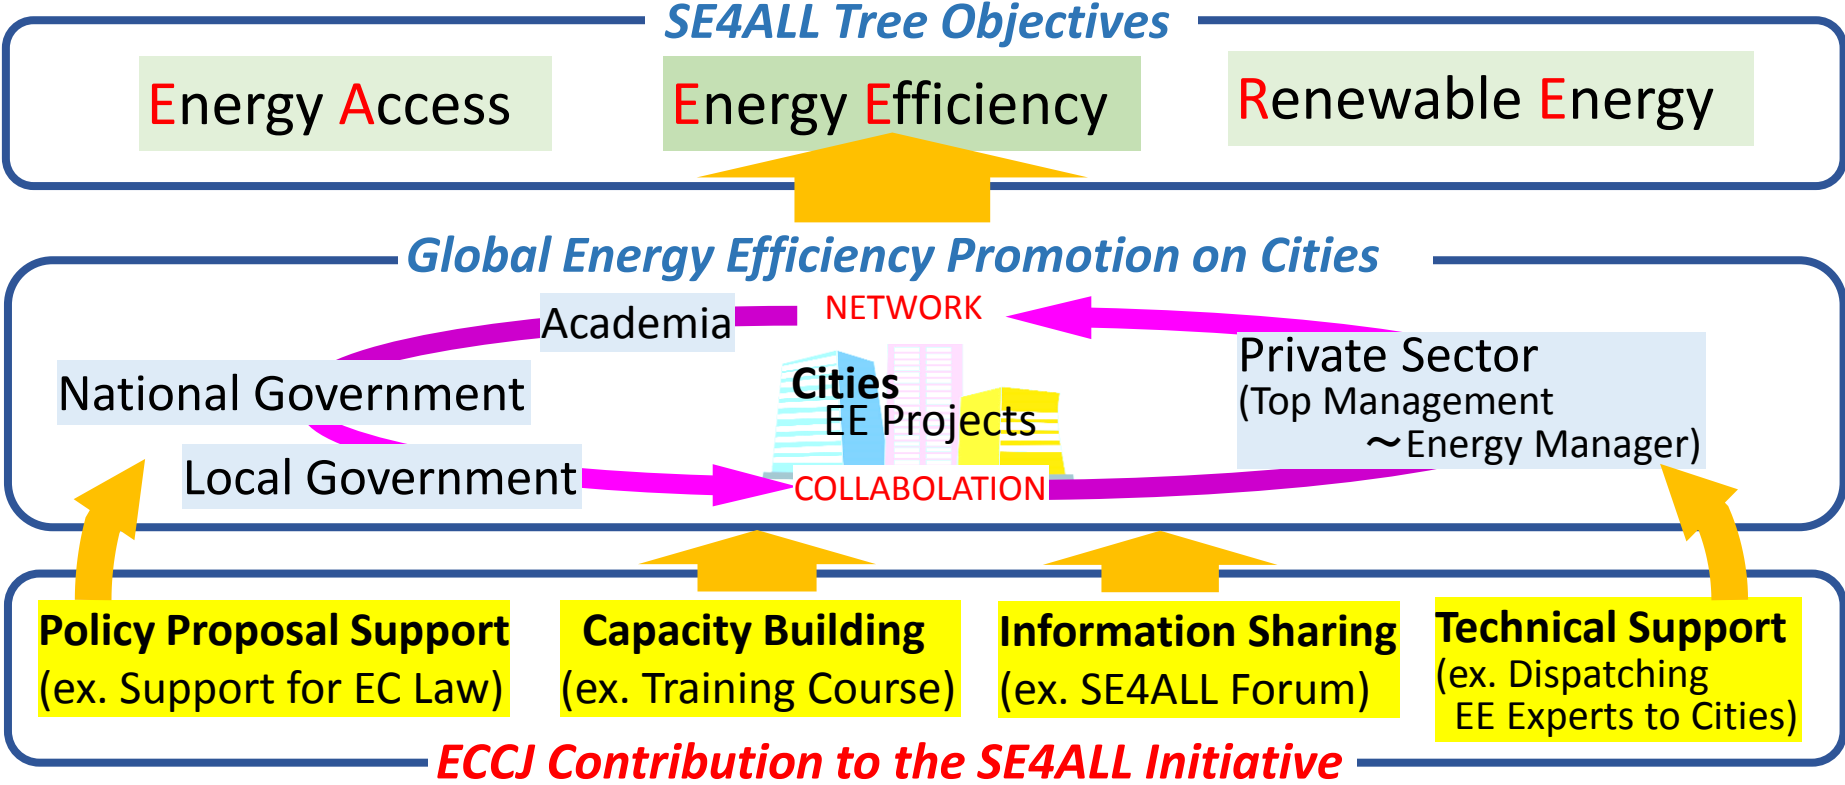

The policies suitable for each city's stage on the roadmap toward the EE final goal are indispensable for EE promotion.

For the above, collaboration among national and local government, technology providers and financial sectors, etc. is quite essential.

# Outcomes of Tokyo Forum 2015

## ECCJ Activities, as the SE4ALL Energy Efficiency Facilitating Hub

ECCJ contributes to the SE4ALL initiative by utilizing the experiences in the international cooperation on EE promotion.
