

Kingdom of Cambodia Ministry of Mines and Energy

Final Report

ECAP20 [Energy Conservation Workshop under AJEEP]

Munyphakdey KOET (Chief Officer)

Department of Technique and Energy Business Policy

phakdeymuny.mme@gmail.com

2019 December 02-06

Tokyo, Japan

Outline

- ✈ ECAP20 Lesson Learned
- ✈ Challenges of EE&C in Building Sector (Cambodia)
- ✈ What have to do?

Lesson Learned from ECAP20

- Understand the basic concept of ZEB Scheme in Japan
- Enhance knowledge of “the ZEB Family Concept” in ASEAN region
- Understand the ZEB READY subcategory in the Special Submission of EE&C Building category under ASEAN Energy Award (AEA)

Challenges of EE&C in Building Sector (Cambodia)

- No **Reference Primary Energy Consumption** (baseline)
- No **EE&C Code** or **Standard**
- Lack of knowledge sharing from the **Previous Participant** since the **ZEB Family Concept** have be proposed in AJEEP Inception Meeting 2017

What NEXT?

- Revise and Reform the **Technical Working Group** from the relevant ministry
- Develop **EE&C Code or Standard** base on the *Draft of National Energy Efficiency Policy 2018-2035*
- Bring at least **1 building** to participant in AEA 2021 (personal ambitious)

ありがとうございました

Thank you for your
attention
